

IEC Academy & Capacity Building Day 2019

More experts – New stakeholder engagement & training approaches

Pudong New District, Shanghai, China – 24 October 2019

Shanghai New International Expo Centre – Room 507 + 508

The panelists

Leif T. Aanensen

Is CEO of the Norwegian Electrotechnical Committee and IEC NC Secretary for Norway. Norway has been successfully enhanced the participation in the last years. He will share his experience on how this has been achieved and speak about future plans.

Lynne Gibbens

Is Manager, International Standards Development – IEC at the Standards Council of Canada and IEC NC Secretary for Canada. Lynne has very active in strategic working groups and is currently convenor of SMB ahG 82 “TC/SC leadership and regional balance”.

Clare Hobern

Is International Engagement Manager at Standards Australia, IEC NC Assistant Secretary and has experience as Technical Committee Secretary as well as in stakeholder engagement.

Manxue Huang

Has been very active in IEC for many years, very successfully organizing the Chinese young and evolving leadership programme, now creating a new academic programme at the Shenzhen Technology University.

Nikita Kuprikov

Has been an expert for aerospace for many years, is active in ISO/IEC JTC 1 committees, has been speaking at events such as the World Standards Cooperation Academic Day 2019 and is advisor to the rector and associate professor at the academy of standardization, metrology and certification Rosstandart, Russia.

Florian Spittler

Has been successfully participating at the IEC Young Professional Programme and worked for many years in the German industry. At the same time, he volunteered to lead the national young and evolving leadership programme “Next Generation DKE”. Since 2019 he is Head of External Relations & Support and Member of the DKE Executive Board.

Jan-Henrik Tiedemann (Moderator)

Jan-Henrik has started as national secretary at DIN, German Institute for standardization, trained countries on European standardization, has been working as Business Analyst and trainer for ISO, introduced innovative tools such as the new Collaboration Platform to IEC and is now Head of the IEC Academy & Capacity Building establishing a new department for stakeholder engagement & training approaches for the entire IEC Community.

IEC Academy & Capacity Building

The IEC Academy delivers continuous training and capacity building to the entire IEC community. It provides high-quality training through webinars, capacity building events and workshops in various countries and at IEC CO. Between 3 000 to 3 500 people were trained and a total of 350 hours of training were given through the activities of the IEC Academy between June 2018 and June 2019.

The IEC Academy provides support to the IEC Regional Centres organizing training events for countries in their region. The IEC Academy also provides Young Professionals training and supports national YP events.
